

ATRESIA - MICROTIA PARENT CONFERENCE

Join us in Colorado!

[Registration is now open for the LTHF Annual Conference](#)

**Friday - Sunday, July 18-20
Westminster, CO - Marriott**

Prior conferences have filled, so reserve your spot and make your plans now for a summer vacation in Colorado!

- * Lectures by experts
- * Private appointments
- * Best option treatment plans

All aspects of care will be covered including rib graft, Medpor, canal surgery, implantable hearing aids, new and upcoming advances, prosthetics, jaw and facial abnormalities among others. You may schedule private appointment with all of the experts you wish to see.

Companies will be demonstrating different technologies applicable to treatment. Leave with a plan you understand and are ready to implement for your child.

In collaboration with
Ear Community!

Conference cost:
\$100 per family

A message from the
Conference Chair

2014

In our experience with over 40 conferences delivered to more than 3,500 families, we have repeatedly seen the value and need of having experienced care-givers in the fields of hearing restoration, outer ear reconstruction, facial and jaw reconstruction and those associated with implantable medical devices in one place. The world's best come together in one venue at one time to be a resource. As many of you know, the solution for each patient is different, and individual planning and decision making is needed. By attending this conference, you will have your action plan in place with state of the art options. Our goal is to give your children the best we have to offer.

Dr. Joseph Roberson

World Renowned Experts & Speakers:
